PROFESSIONAL SUMMARY

Detail-oriented MIS & Data Analyst skilled in preparing accurate, actionable reports and dashboards from multi-source data. Hands-on with advanced Excel (VLOOKUP, Pivot Tables, Power Query) and SQL for data extraction, cleaning, and consolidation. Experienced in building Power BI and Tableau dashboards that track sales, operational KPIs, and risk metrics, with a strong focus on data accuracy, validation, and timely reporting to support management decisions.

EDUCATION

B.Tech Computer Science and Engineering, Shaheed Bhagat Singh State University Oct 2021 – June 2025

SKILLS

MS Excel (Advanced)	VLOOKUP, Pivot Tables, Power Query, Conditional Formatting, Charts, Data Validation
Databases & Programming	SQL (data extraction, joins, aggregation), Python (NumPy, Pandas, Matplotlib)
BI & Reporting Analytics	Power BI, Tableau, MIS report preparation, KPI dashboards Data cleaning & consolidation, discrepancy identification, insights generation, ad-hoc analysis
Tools	Jupyter, Git

PROJECTS

Blinkit Sales Analysis & KPI Dashboard (Power BI, Excel, SQL) [\(View Dashboard\)](#)

- Consolidated and cleaned 8.5K+ grocery sales records from raw data sources using SQL and Excel, resolving data discrepancies to ensure report accuracy.
- Built an interactive Power BI dashboard tracking business performance metrics such as total sales, average order value (AOV), and category-wise performance.
- Delivered insights on top-selling items and regional trends, supporting marketing and inventory decisions in the style of recurring MIS reporting.

Bank Loan MIS & Risk Analysis Dashboard (Tableau, Power BI, Excel, SQL) [\(View Dashboard\)](#)

- Processed and validated 30K+ loan records using SQL and Excel to analyze approval rates, defaults, and repayment trends with high data accuracy.
- Developed summary, customer, and risk dashboards in Tableau and Power BI, replicating monthly MIS-style reporting views for management review.
- Identified high-risk borrower patterns through KPI tracking, supporting data-driven credit policy refinement.

CERTIFICATIONS

Tata Data Visualisation: Empowering Business with Effective Insights — Forage Job Simulation

- Created data visualizations and analysis-ready visuals for Tata Consultancy Services to help executives with effective decision making.
- Prepared questions and reporting material for a meeting with client senior leadership.

Tata Group Data Analytics — Forage Job Simulation

- Performed exploratory data analysis (EDA) for the Financial Services team at Tata iQ, assessing data quality and identifying risk indicators.
- Proposed a no-code predictive modeling framework to assess customer delinquency risk, with structured model logic and evaluation criteria.
- Designed an AI-driven collections strategy incorporating automation, compliance, and scalable implementation frameworks.
